II. Medicaid Program

22. The term “health care benefit program,” as defined in 18 U.S.C. § 24, means any “public or private plan or contract, affecting commerce, under which any medical benefit, item or service” was provided to any individual, and includes any individual or entity who provides a medical benefit, item or service for which payment may be made under the plan or contract.

Medicaid was a health care benefit program. The Centers for Medicare and Medicaid Services (CMS) was the agency responsible for the administration of the Medicaid program. Medicaid paid health care providers, pursuant to written agreements, on the basis of reasonable charges for covered services provided to beneficiaries.

23. Medicaid, established by Congress in 1965, provided medical insurance coverage for individuals whose incomes were too low to meet the costs of necessary medical services. Approximately 60% of the funding for Ohio’s Medicaid program came from the federal government. The Ohio Department of Medicaid (ODM), headquartered in Columbus, Ohio, administered the Medicaid program in Ohio. ODM, received, reviewed, and obtained formal authority to make payment of Medicaid claims submitted to it by health care providers.

24. ODM contracted with Medicaid Managed Care Organizations (MCOs) through contracts known as Contractor Risk Agreements (CRAs), which conform to the requirements of 42 U.S.C. §1395mm and §1396b(m), along with any related federal rules and regulations. MCOs were health insurance companies that provide coordinated health care to Medicaid beneficiaries. The MCOs contracted directly with healthcare providers, including hospitals, doctors, and other health care providers to coordinate care and provide the health care services for Medicaid beneficiaries. Providers who contract with an MCO were known as Participating Providers. Pursuant to the CRAs, ODM distributed the combined state and federal Medicaid funding to the

MCOs, which then paid Participating Providers for treatment of Medicaid beneficiaries whose benefits were administered by MCOs.

25. Individuals enrolled in the Medicaid program were commonly referred to as “recipients” or “beneficiaries.” Eligible recipients obtained Medicaid coverage directly through ODM, also known as fee-for-service coverage, or joined a Medicaid MCO to manage their benefits.

26. Pursuant to the rules and regulations of the Ohio Medicaid Program, including ODM and Medicaid MCOs, Medicaid only paid for services that were actually rendered by qualified individuals, and they must have been medically necessary and provided in accordance with Federal and State laws rules and regulations, including anti-kickback laws.

27. Under the Ohio Medicaid Program, services rendered to Medicaid beneficiaries were required to be reasonable and necessary for the treatment or diagnosis of the beneficiary’s medical condition. Individuals providing these services were required to have the appropriate training, qualifications, and licenses to provide such services, or, in some circumstances, under the supervision of licensed professionals. Among other things, providers were required to document the services provided; document the date of service; and identify the provider who performed the service. Providers conveyed this information to ODM or an MCO by submitting claims using billing codes and modifiers. To be reimbursed from Ohio Medicaid Program for counseling services or behavioral health services, the services had to be reasonable, medically necessary, documented, and actually provided as represented to Medicaid. Providers were required to maintain patient records to verify that the services were provided as represented on the claim form to Medicaid.

28. Providers who provided services to Medicaid beneficiaries used a number assigned to the patient to fill out claim forms. The claim form was submitted by the provider to make claims for payment to Medicaid. ODM and/or Medicaid MCOs processed each health insurance claim form and issued payment to the provider for the approved services. Providers submitted claims in paper format or by electronic means.

29. ODM and Medicaid MCOs used the written claim forms and/or electronic invoices to establish the validity of health care claims entitled to payment. A provider who submitted claims to ODM, or Medicaid MCOs, certified that the treatment was provided by a qualified individual, actually given to the client as documented, and was medically necessary for the health of the patient.

30. To become an eligible Medicaid provider, ODM and the Medicaid MCOs required providers to obtain a Provider Agreement by completing a Provider Enrollment Application. BAILEY, on behalf of EYE FOR CHANGE, entered into a Provider Agreement with ODM on or about August 1, 2017, and agreed to abide by all the rules and regulations of the Medicaid program. EYE FOR CHANGE also had provider agreements with CareSource, United Healthcare, Buckeye, and Wellcare. These agreements allowed EYE FOR CHANGE to bill for medical services rendered by EYE FOR CHANGE employed providers to Medicaid recipients.

31. On January 01, 2018, ODM updated the policies for providing mental/behavioral health services. Prior to this date, mental/behavioral health providers could submit claims to ODM without identifying the rendering practitioner on the claim. After January 01, 2018, all rendering practitioners were required to enroll in the Medicaid program and affiliate with their employing agency. Each behavioral health agency had to ensure that each of its corresponding

employed providers was “affiliated.” ODM required that the rendering practitioner for behavioral health services be listed on claims submitted to ODM for payment.

32. ODM required the enrolling practitioners to list the type of license, college degree, and/or years of experience. ODM defined what services could be provided by a practitioner based on the practitioner’s licensure and experience.

33. A qualified behavioral health specialist (QBHS) was an individual who had received training for, or education in, either mental health or substance use disorders and had demonstrated, prior to or within ninety days of hire, the minimum competencies in basic mental health or substance use disorders. A QBHS had to be supervised by an individual qualified to supervise the provision of services within their scope of practice. A QBHS included both a qualified mental health specialist and a care management specialist.

III. Medical Billing and Coding

34. Medical providers and health care benefit programs used well-known and standard insurance processing codes to identify certain medical diagnoses and medical treatments or procedures. Current Procedural Terminology (“CPT”) and Healthcare Common Procedure Coding System (“HCPCS”) codes were used for billing Medicaid beneficiaries.

35. Medical providers recorded diagnoses and medical procedures on a standard claim form known in the industry as the CMS1500 form, which was sent to the beneficiary’s health care benefit program. CPT codes had to be designated on the CMS 1500 claim form by the health care provider and then submitted either by mail or electronically to the health care benefit program for payment. By submitting claims using these CPT codes, providers represented to Medicaid that the services depicted in the codes were, in fact, performed or provided.

36. Each Medicaid beneficiary was assigned a unique identification number by the Medicaid Program. Each beneficiary could be identified by reference to his/her unique identification number. Once enrolled in Medicaid, a beneficiary received covered medical services from Medicaid providers.

37. CPT Code 90791 was designated for a Psychiatric Diagnostic Evaluation. ODM required the evaluation, also referred to as a mental health assessment, to be conducted by a credentialed professional prior to additional initiation of other services, except in emergency situations. The assessment was a clinical evaluation of a person which was individualized based on age and gender and was culturally appropriate. The assessment determined diagnosis and treatment needs, and was used to establish a treatment plan to address illness or a substance abuse disorder.

38. ODM would only authorize payment of subsequent mental/behavioral health services if the Psychiatric Diagnostic Evaluation was conducted by a properly credentialed professional. A qualified mental health specialist (QMHS) would not be a credentialed professional and was unable to conduct a Psychiatric Diagnostic Evaluation.

39. The development of the treatment plan was a collaborative process between the client and service provider based on a Psychiatric Diagnostic Evaluation, a continuing assessment of needs, and the identification of interventions and services appropriate to the individual's diagnosis and other related needs. Providers could accept a mental health assessment from another provider as long as the assessment was completed within the preceding twelve months.

40. A treatment plan had to be completed within five sessions or one month of admission, whichever was longer, and had to specify agreed upon treatment goals, document

response to ongoing treatment, and present documentation that the patient signed off on the treatment plan.

41. HCPCS Code H0036 was designated for Face-to-Face, by telephone, and/or video conferencing, Community Psychiatric Support Services (CPST). H0036 was billed on a per unit basis. Each unit was equal to 15 minutes of treatment. The purpose of CPST services was to provide specific, measurable, and individualized services to each person served. CPST services focused on the individual's ability to succeed in the community; to identify and access needed services; and to show improvement in school, work and family and integration and contributions within the community.

42. HCPCS Code H2019 was designated for therapeutic behavioral services. H2019 was billed on a per unit basis. Each unit was equal to 15 minutes of treatment. The purpose of therapeutic behavioral services was to provide specific, measurable, and individualized services to each person served. Therapeutic behavioral services were goal directed and solution focused.

43. CPT code 90837 was a billing code that described a 60 minute psychotherapy session performed by a qualified health care professional, face-to-face with a patient. It was the treatment of mental illness and behavioral disturbances through definitive therapeutic communication, attempts to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and encourage personality growth and development.

44. Providers were required to document the services they provided, including the progress or lack of progress toward the achievement of specified treatment goals identified in the treatment plan and the continuing need for services. Progress notes were required to have the client's name or Medicaid number, date and time of service and length of contact, location of service, description of service rendered, assessment of the client's progress or lack of progress,

significant changes or life events, recommendations, and the signature and credential of the service provider along with the date of the signature.

SCHEME TO DEFRAUD

45. It was part of the scheme to defraud that at various times:

- a. BAILEY, BROWN, WHITE, WILSON, OLIVER, TUCKER, STEELE, GANAWAY, KELLOM, BAKER, BELL, FELLOWS, GORHAM, HENDERSON, KING, LITTLE, TARVER, TOWNSEND, WARE, NIAMKE, EYE FOR CHANGE, and others submitted, caused to be submitted, and allowed to be submitted billings, to Medicaid, for counseling services that were not actually performed.
- b. BAILEY, BROWN, TUCKER, BAKER, BELL, FELLOWS, GORHAM, KING, LITTLE, TOWNSEND, WARE, NIAMKE, and others submitted, caused to be submitted, and allowed to be submitted billings, to Medicaid, for counseling services that were not actually performed for the amount of time that the billing codes reflected.
- c. BAILEY, BROWN, WHITE, WILSON, EYE FOR CHANGE, and others submitted, caused to be submitted, and allowed to be submitted, billings to Medicaid for counseling services without the required Psychiatric Diagnostic Evaluation being performed by qualified individuals prior to the initiation of services.
- d. BAILEY, BROWN, WHITE, WILSON, EYE FOR CHANGE, and others submitted, caused to be submitted, and allowed to be submitted billings to Medicaid for counseling services without an appropriate treatment plan being developed for the clients prior to the initiation of services.
- e. BAILEY and EYE FOR CHANGE paid VALERIE WHITE and SANDRA WILSON, an LISW, to use WILSON's provider number and credentials on bills for

and documents regarding Psychiatric Diagnostic Evaluations, also known as mental health assessments, that WILSON never performed.

f. BAILEY, BROWN, TUCKER, EYE FOR CHANGE, and others paid and caused to be paid kickbacks in the form of cash, gift cards, and rent/bill payments to Medicaid beneficiaries to obtain the beneficiary as a client as well as to be able to bill Medicaid for services not rendered to beneficiaries.

g. BAILEY, BROWN, WHITE, WILSON, EYE FOR CHANGE, and others directed employees to misdiagnose Medicaid beneficiaries to continue to get authorization from ODM to provide services to the beneficiary and to bill at higher rates.

h. BAILEY, BROWN, OLIVER, TUCKER, STEELE, GANAWAY, KELLOM, BAKER, BELL, FELLOWS, GORHAM, HENDERSON, KING, LITTLE, TARVER, TOWNSEND, WARE, NIAMKE, EYE FOR CHANGE, and others directed and allowed employees to insert false progress notes into Medicaid beneficiary electronic records and created false progress notes.

j	June 20, 2018 7:16:41 PM	BROWN	BAILEY	It will be done by next billing u have to understand if I don't have real up to date signatures this will look bad
k	November 30, 2018 2:13:40 PM	BAILEY	BROWN	They want to talk with C[] M[] who is on A[] caseload can you give me her number prep her. I will give her 100 bucks if shell right make a statement and talk to C[]
l	November 30, 2018 2:29:53 PM	BROWN	BAILEY	She called u just type up what u need her to sign
m	November 30, 2018 2:30:03 PM	BROWN	BAILEY	She cool she don't care like that
n	July 19, 2018 7:59:32 PM	BAILEY	BROWN	Dave some of the people you gave us that didn't want to attend the date we can write notes on at least half of them don't even have assessments or treatment plants in the system how quickly can you get those done C[] agree to write the notes for those people so that

	Date/Time	Sender	Recipient	Content
				we can at least get that money which we need
o	June 19, 2019 8:15:50 AM	BAILEY	BROWN	He should never have just left them because the office people didn't know what to do with them so Mrs. S[] took them but the reality is the forgeries are so badd they all look like the exact same signature with a different name
p	June 19, 2019 8:21:03 AM	BAILEY	BROWN	I think it was a lot to go through for him to forge all 12 of them why isn't that your issue that was too far when they're people that he knows in he has been billing on for months it makes no sense to me hes always talked about he has a relationship with these kids and their families why not spend an hour or 2 to go get real signatures
q	June 19, 2019 8:25:24 AM	BAILEY	BROWN	All im saying is, The one thing I know that he doesn't want is to be banned from doing medicaid billing anywhere and to have his school district contacted and them figure out that hes using kids from that school district then I won't have a job. Is all this worth it if their kids that he knows in families that he knows that he can just go get the signature which is what I should have done the 1st time that's all I'm saying no judgment I really don't care but is all this worth it
